

# Project 3: Web Based Interface for PSAT using Streamlit (<https://streamlit.io/>) Library

Mayank Agarwal

Python 3.8.10 Install Instruction <https://pastebin.com/nvibxmjw>

**Deadline:** 30th Nov, 2022. 23:59. All of your git repos shall be pulled after that. That will be the version which will be checked.

**Warning:** Sharing is Caring is good for cat videos. Sharing of program may lead to plagiarism and would effect in 0 to both.

**Pull This Git Repo** - [https://github.com/Cs3842022/CS384\\_2022](https://github.com/Cs3842022/CS384_2022) and copy the proj3 to your repo folder.

**Git Requirements:** At least 5 git commits should be there with meaningful comments (at least 4 words)

**The entire code must be into multiple try, except block:** Multiple Try Except should be the part of the code, so that if there is an error in a new file, the program throws the exception and does not stop. Also the number of rows should be read such that files bigger/smaller than this should be able to run by your code.

Details: <https://youtu.be/0srus9mXEhk>

Usage of Streamlit <https://streamlit.io/> Library is mandatory.

Any additional feature that you can think of. If the feature seems worthy it shall have bonus marking.

It needs to be implemented in a group of two students as mentioned.

You can use online resources. But you should be able to explain your code when you will show the project demo.
